SMOTHERING SPELLS AND OTHER ILLS DISAPPEAR BEFORE WORLD'S GREATEST NERV TONIC.

"I suffered with indigestion and stomach trouble. Gases formed. No sleep. Smothering spells. Appetite poor. Heart fluttering. No ambition."

"I have taken one bottle of Nerv-Worth and feel much better—must say a good deal better. Gases all gone, sleep better than I did, no smothering spells. I feel able to do things."

Is it any wonder that C. W. Evans, of Hanna, Wood county, West Virginia, author of the foregoing endorsement, wanted to tell friends and neighbors about Nerv-Worth when it is remembered that this wonderful medicine saved him from smothering spells? It has saved thousands from all sorts of miseries of a nervous origin—from indigestion, sleeplessness, dizziness, heart flutter, bowel trouble, sick and nervous headache, pains in side, back, head and chest that weary "draggy" feeling low spirits and run down condition in general. Prove the statement yourself by buying a bottle of the remedy at the Burke drug store, exclusive sellers of Nerv-Worth in Clarksburg. Won't cost you a cent if you get no relief. TRUE WILL OF PEOPLE IS NOT CARRIED OUT.

SHANGHAI, April 29.—Dr. Wu Ting-fang has despatched a long message to the central government urging that a conference should be held in Shanghai for the purpose of discussing the form of government of China.

Dr. Wu's message says the government's claim that it is carrying out the true will of the people in its present course is not based on a thorough knowledge of what the actual opinion is in the South. He urges a peaceful, rather than a warlike settlement of the differences between the North and the South.

WISCONSIN FARMER ENRICHED BY WAR

Once Poor Farmer, Now Worth Quarter of a Million, Tax Collector Says.

MONROE, Wis., April 29.—The European war is making millionaires in southwestern Wisconsin, according to I. M. Stauffacher, income tax assessor for the Fifth district of Wisconsin, embracing Green and Lafayette counties.

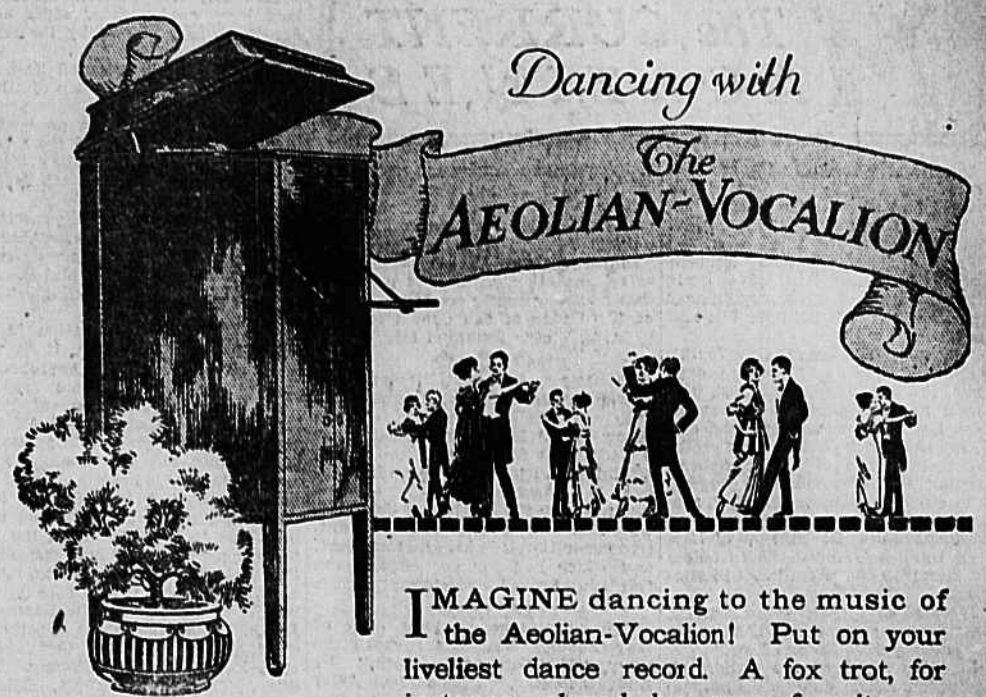

Mr. Stauffacher has just returned from a tour of Lafayette county, where he investigated the increased activity in the mining regions of Shullsburg, New Diggings and other sections which have taken on added life with the increased demand for lead resulting from the European war. He reports that the man who is paying the largest individual income tax in the entire district this year was practically penniless a few years ago. Tiring of working as a day laborer the man purchased eighty acres of land in Lafayette county. The land was so hilly that little of it was tillable.

Today he is worth close to a quarter of a million, and he will be worth several times this if the European war continues and the price of lead remains at the present mark. This wealth came as a result of a neighbor prospecting a little on some land that he owned. A vein of lead was struck. Thinking that he might have equally as good fortune as his neighbor, the farmer put in a little of his spare time in sinking a shaft. The sequel was the opening of one of the richest beds of ore discovered in southwestern Wisconsin.

Inside Facts About Refrigerators

It is the inside of a refrigerator that counts. And no refrigerator is better than its lining. If it is lined with zinc or sheet iron, no matter how it is galvanized or painted, it cannot possibly be sanitary.

In the Leonard Cleanable the lining is of genuine porcelain—all in one piece. Look at the doors; even the edges are porcelain. No joints, no cracks, no crevices to harbor germs and give out odors. You wash it with soap and water like you clean a dish. You can tell this lining from others for it cannot be scratched or marred, even with a hat pin or a knife blade.

Don't accept any other refrigerator than the genuine Leonard Cleanable. Look for the name and be sure. Let us show you this splendid refrigerator and explain its many good qualities. It is made in the largest refrigerator plant in the world and, in our opinion, it is the best.
